

*"I strive to provide my
Corporate and Business
Clients with good, solid
Immigration Legal
judgment, and
affordable Legal
Services."
- Rahul Manchanda,
Esq., Principal Attorney*

Today, now more than ever, the Immigration and Customs Enforcement ("ICE"), the enforcement branch of the United States Citizenship and Immigration Services ("USCIS"), is taking more aggressive steps to ensure that all workers in your business have the proper legal status to work and live in the United States, including sanctioning, closing down, fining, and penalizing monetarily with heavy fines those Corporations and Businesses who employ those illegal foreign workers.

Every US Corporation and Business in today's Immigration climate needs the sound advice and know-how of a competent and solid Immigration Attorney with extensive experience and problem solving ability, to help you, your business, and your workers breathe easier, knowing that you are safe to both work and do business in the United States.

The Immigration Attorneys at Manchanda Law Offices PLLC have a wealth of experience in solving complex Immigration Law problems and issues – everything from legalizing illegal alien workers, preemptively defending your business against I-9 and Immigration sanctions and raids, and helping to bring and employ foreign workers at your business. Over the past nearly 10 years, we have successfully represented Modeling Agencies, Construction and Contracting Companies, Fashion Companies, Technology Companies, Oil & Gas Exploration, Automobile Companies, Nightclubs, Restaurants, and scores of other business sectors. Let us put that power and experience to work for you.
